## About This Game

In a future both distant and close, a giant, impenetrable wall divides a country. On one side, prosperity and wealth. On the other, poverty. And you? You're the one set on taking it all down.

*Neon Kicks* is an action game focused on speed, precision, and narrowly avoiding death. In this game, you'll find:

- Teleporting shoes! Kick off each shoe individually, and teleport to thrown shoes.
- A variety of obstacles! Everything in or on the border wall is trying to kill you, so watch out. And you're not the only one inside the wall...
- Lots of neon! The cyberpunk world is beautifully rendered with neon lighting and particle effects.
